HAWAII'S SCHOOL EXHIBIT AT FAIR

Babbitt Plans Best Ever For Exposition In Seattle

Hawaii's school exhibit at the Alaska-Yukon-Pacific Exposition in Seattle next year promises to be the finest exploitation of what has been and what is now being done in the educational institutions in this mid-Pacific Territory of the United States. Superintendent of Public Instruction Babbitt, who is a member of the Seattle Fair Commission, appointed by Governor Frear, has already mapped out the skeleton plans for the school exhibit.

Committees have been appointed in each school circuit, which really means each county, and these committees will work up a special county exhibit. These exhibits will all be shown here in Honolulu and another committee will be appointed for the purpose of selecting the best out of the lot. This, of course, will be a big affair, but after it will come the special exhibit, at which the exhibits which will go to Seattle will be selected by the man who has charge of Hawaii's entire exhibit. The various county exhibits, Mr. Babbitt says, should be here about the middle of April. The Alaska-Yukon-Pacific Exposition begins on June 1st and ends October 15th.

On account of the great number of nationalities represented in the schools here, Hawaii's exhibit from her schools should prove of vast interest. Each individual piece of work will be tagged with the pupil's name, nationality, age and grade. The private schools will also be given consideration, but Mr. Babbitt has not taken the matter up with them yet.

The test case of the United States versus the Haleakala Ranch Company with respect to the financial aiding of political campaigns by corporations may be heard before Judge Dole this afternoon.

BECKLEY JOINS "INDEPENDENTS"

I hereby announce myself as an independent candidate for the office of Treasurer for the City and County of Honolulu.

GEORGE C. BECKLEY.

This announcement was made by Admiral Beckley this forenoon.

When asked if he had anything else to say he replied, "Nothing." In commenting on his candidacy the Admiral stated that everyone else was getting into the independent fight and he thought he might as well. "I am not hurting any party. I did not attend any convention. I am merely exercising my right as a citizen to declare myself for office. We'll let the people take care of that."

Feds Will Back Trent

The independent running of Long for County Attorney, laukae for Sheriff and Monsarrat for Deputy was the cause of much discussion among the politicians today. The Republicans are exceedingly wroth at Long, who, they claim, violated his party pledges, while the Democrats have it in for laukae, though not in as great a measure, as he has for some time past been considered a weak sister by the party men.

On the whole, every one seems to be happy, both parties claiming that by the running of the independent candidates their respective party candidates will be benefited. Thus the

Republicans say that Long will take nearly all his votes from among the disgruntled Republicans who would otherwise vote for Edings, while the Democrats claim that Long will split the Republican votes to such an extent that Edings will slip in. The Democrats claim that laukae will take from Wise the Civic Federation vote, while the Republicans are equal to certain that laukae will take a number of Democratic votes from Jarrett.

The announcements made by Long and laukae of their candidacies were as follows:

To the Voters of Oahu County:
Yielding to the solicitation of a responsible taxpayer of the community, I hereby announce myself as an INDEPENDENT CANDIDATE for the office of COUNTY ATTORNEY, at the ensuing election. I was born and reared in Honolulu; I have

NOTLEY EXPLAINS HIS HACK HIRING

Employs Japanese Who Can Carry Him Cheaply

"Talking about the 'A Setta,' which states that I patronize the Japanese hackmen in preference to the Hawaiian hackmen," said Notley this afternoon, "I would like to state that the Hawaiian, the haoles, and the Portuguese hackmen are welcome to come and drive me for 30 cents an hour."

"I have told many hackmen to come daily to my house and take me along for 30 cents an hour; but none of them would do so. They don't want to accept that offer, while my Japanese hackman right here is willing to do the work for that price. I am not to blame. The trouble with those hackmen is that they hire their hacks from the Pake and Japanese stables, which they have to pay \$3 a day for their use. My Japanese driver here owns his own hack and is willing to take me around for 30 cents an hour. "Regarding the European immigration, I am opposed to it, because there are enough field hands here. The planters are not employing them now, and yet some more are to come."

BOOMERANG AT WORK

Fifteen Hawaiians who were working on the road at Koluau are reported by Mr. Watson to have been discharged from their work today. The reason is said to be that they sent a petition to the Board of Supervisors asking that Gere, brother to the County Engineer, should be removed for cause. The petitioners were, however, discharged by Road Supervisor Peck, instead of the man whose scalp they were after.

Albert Gumbs will today give a banquet for the Giant newboy baseball team, to celebrate their victory over the Bulletins at Baseball Park yesterday.

The breaking down of a water cart on King street outside the First National Bank this afternoon held up the Rapid Transit service for about fifteen minutes. President Peck of the R. T. Co. emerged from the back and directed the work of restoring the service.

Vida Leaves Democrats And Roasts Party

Henry Vida, who forsook the Republican party some time ago and became an Achi man, and who left Achi to become a Democrat, has now had another political change of mind, and has left the Democrats to seek consolation with Achi. He explains his reasons in the following letter to his erstwhile Democratic brethren:

Gentlemen:—I hereby resign from membership in the precinct club of the Second Precinct Fourth District, and sever all connection with the Democratic party.

It is proper that I should state the reasons for my action in the premises, and these reasons are as follows: In joining the Democratic party I did so under the belief that the party was Democratic in fact as well as in name, and that each individual member was entitled to a voice in all matters and that the action of the party was based on the free and voluntary act of all of the members of the party, no matter how humble each may be. I find instead that the Democratic party is controlled, and its action dictated, by a few men who work in secret, and that the members of the Democratic party outside of these few men have nothing to say as to the actual control and management of the party.

W. O. Smith Favors Land Improvement

The Land Advisory Board convening this morning in the old Throne-room in the Capitol, and, although there was a very small attendance, the meeting continued until the noon hour, and there was not a moment of the time wasted. Members of the Land Advisory Board, appointed by Governor Frear, who were present were A. Lewis Jr., chairman; Carl Smith, J. P. Cooke, W. B. Thomas, and Alfred Carter. Present at the meeting were Land Commissioner Pratt, W. O. Smith, Mr. Hind of Kohala, Col. Sam Parker, Mr. Testa, Mr. Tucker, and Mrs. laukae.

The usual questions were referred to with regard to the local land laws by Mr. Lewis and the other members of the Board, and suggestions were called for from those present with respect to tentative remedies. If there were any faults in the manner in which lands were now being doled out, Mr. Lewis stated that he wanted to hear what they were and he also wanted to hear suggestions as to what remedies could be applied to these that would work out consistently with the rest of the laws. Carl Smith went into a minute detail of

the manner in which lands, that is, homestead tracts, had been handled in Hilo. This was with the view of bringing forth remarks on the residence clauses in the land law.

W. O. Smith brought up a phase of the present land laws that has been given a great amount of attention and study, i. e., the residential clause. However, he made a strong suggestion that the residence clause should not be made so rigid, but that one favoring improvements on the land proper be added and given much attention. Mr. Smith also stated that plantation land should not be given out by the Government without reserving a space in the center for the mill.

Mr. Testa brought up the matter of the appraised values of Government lands which were sold to homesteaders. He gave a specific example where the appraised value was far too much, and maintained that all such should be kept as low as possible.
